

We are excited to announce that we are able to resume serving our guests at several of our locations.

Please check our locations page for more details

While health and safety are always a top priority for us, we want you to know that we have taken extra precautions to help keep you safe and healthy at the Putting Edge. Some of these extra measures are explained below:

Reservations only:

To avoid unnecessary line ups, please visit puttingedge.com to reserve your tee time before entering the facility.

Masks:

Masks are mandatory for all guests and staff entering the premises. Please keep it on at all times.

Increased tee time intervals:

We have increased the spacing between each group on our golf course to help with social distancing.

Extra cleaning staff:

Putting Edge will always have extra staff on that will be dedicated to constantly disinfecting all touch points.

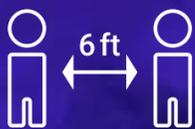

Reduced capacity is in effect:

To ensure we do not overcrowd our facility, we will be limiting the number of guests that are allowed at any time.

Disinfecting of putters and balls:

In addition to staff disinfecting, we are providing wipes for you to wipe down your equipment as well.

Social distancing:

Please ensure you are using social distancing at all times! We have placed signage throughout our facilities.

Employee health screening:

All employees will be going through a temperature check before each shift and will be wearing face masks at all times.

No cash:

Due to health concerns, Putting Edge will no longer be accepting cash at our facilities. Cards only.

Hand hygiene is key:

We have placed additional hand sanitizer stations throughout our facility. Please use them!

Lockers:

Please note that our lockers have been placed temporarily out of service for your safety.

Guest health:

If you are not feeling 100%, please stay home to self-isolate. We look forward to hosting you when you feel better!
